SCHOOL HEALTH PROGRAM REPORT

Each pupil entering school for the first time received a physical examination, either through Project Head Start, the Supervisory Union 9 health appraisal program at Memorial Hospital, or a report of a medical examination by the family physician was furnished by the parents at their expense. Vision screening, hearing screening, measurements of height and weight were carried out at the time of the examination or soon thereafter.

The Tine Test was administered to first graders in cooperation with the New Hampshire TB and Health Association. All tests were negative.

The Bureau of Dental Public Health of the Division of Public Health State Department of Health and Welfare presented an educational program toward better dental health to all elementary grades.

Ten students were transported to North Conway each week for speech therapy.

Through the fine cooperation of parents, school personnel, and health agencies each first grader had received a Measles (Rubeola) vaccination, immunizations against diphtheria, tetanus and whooping cough, poliomyelitis and a successful smallpox vaccination prior to school entry.

Respectfully submitted,
REBECCA P. SANBORN, R. N.
